Functions

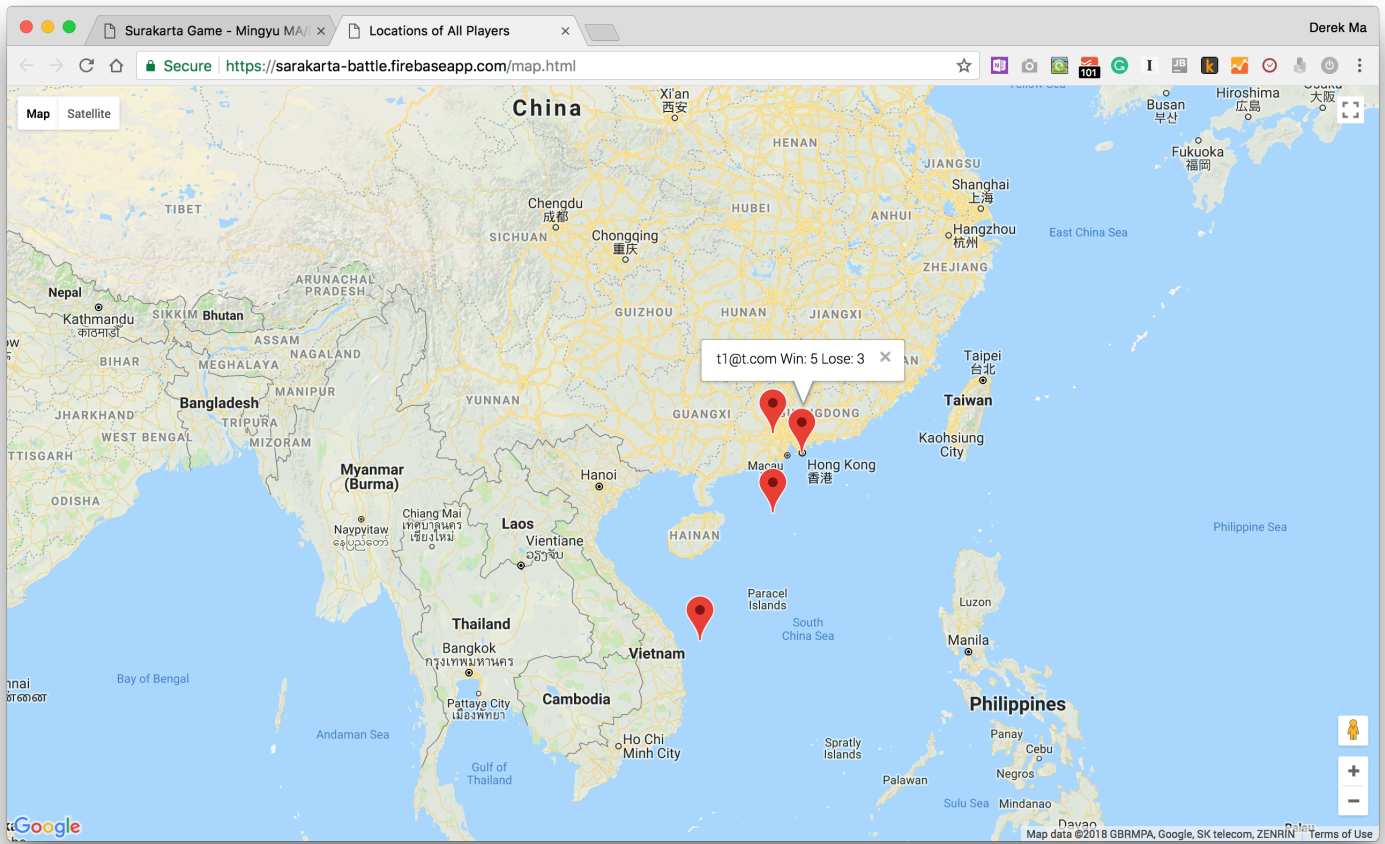

The screenshot shows a web browser window with the address bar displaying <https://sarakarta-battle.firebaseio.com/?mode=select>. The page content includes the heading "Please sign in to play online" and a "Create account" form. The form has three input fields: "Email" with the value "name@gmail.com", "First & last name" with the value "Derek Ma", and "Choose password" with masked characters ".....". At the bottom of the form are two buttons: "CANCEL" and "SAVE". The browser's bookmark bar shows various folders like "Apps", "Bookmarks", "Trello", "Toggle", "PolyU", "Courses", "MOOCs", "Study", "AI3", "Blockchain", "Grad", "MIT Research", "Favorite", "Intern", "MySite", and "Other Bookmarks".

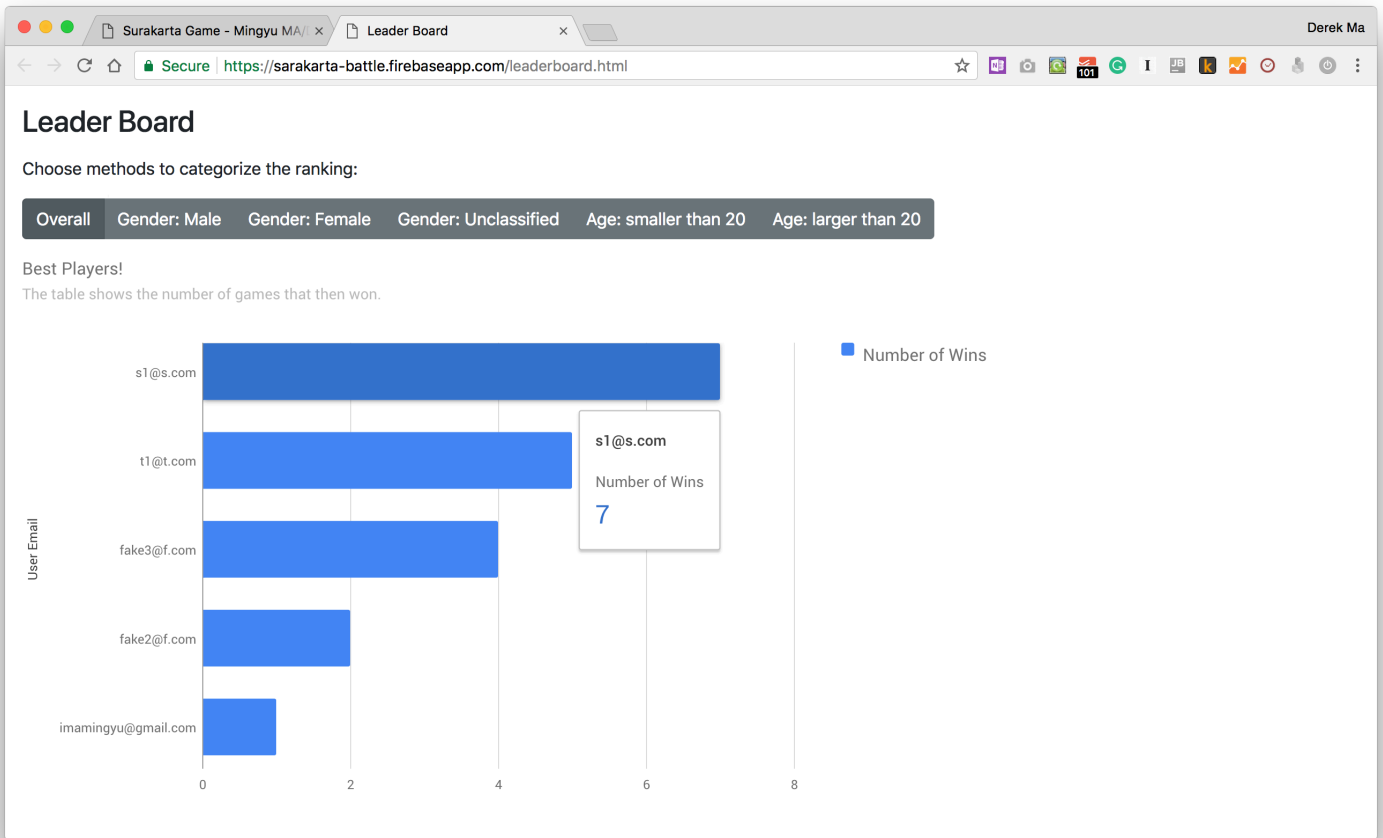

User login or create account at login page

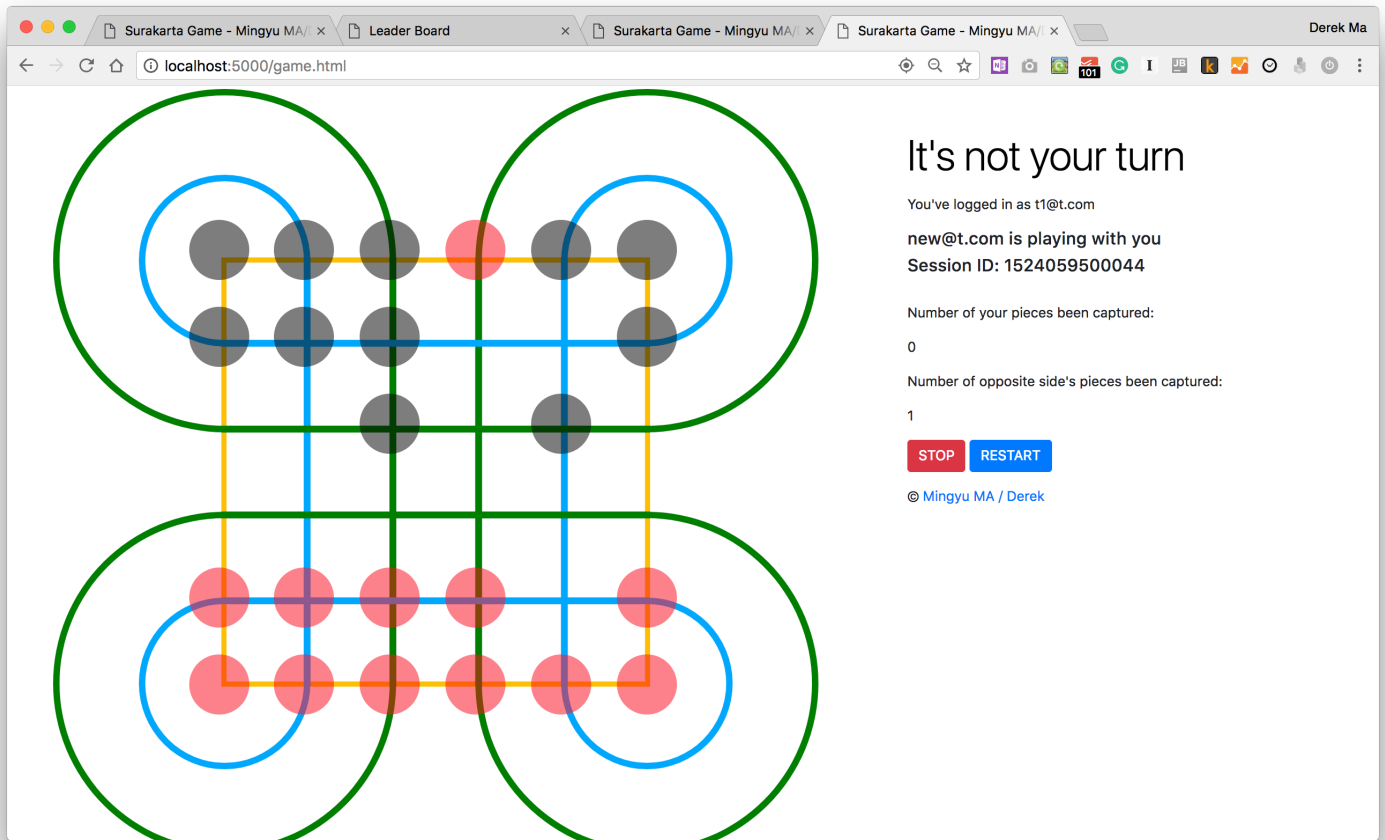

Then user can get this main page to choose functions

Show all users' locations and grades on the map

Show the leaderboard with best players. They can be categorized by click the filter tag

User can create a session or join a session created by other users.

Rules

Goal

Capture as many as possible pieces of your opponent. Stop when click the **STOP** button or all pieces of one side are all captured.

The winner will be the one left more pieces on the board.

General Turns and Rules

- A player move one piece, and then another player move one piece.
- Player can only move piece that owned by him/herself.
- Pieces always rest on the points of intersection of the board's grid lines.

Moves

There are two types of moves: normal move and capture .

Normal Move

Only move to unoccupied point in any direction. Normal move can't go through circuits.

Capture

Go through at least one inner or outer circuit around the corners and unlimited number of unoccupied points, and then land on an enemy piece to capture it.

The captured piece will be removed from the board, and the piece which capture others will stay at the location of captured piece.
